Pankaj Dumka

Halduchaur, India | +91-8439523521 | pankajdumka1@gmail.com | linkedin.com/in/pankajdumka1 | github.com/dumkapankaj55

Professional Summary

Computer Science undergraduate (B.Tech, 2027) and aspiring Software Developer with hands-on experience building full-stack web applications using React.js, Node.js, Express.js, and MySQL. Solved 200+ DSA problems on LeetCode and GeeksforGeeks. Built AI-integrated applications using the Gemini API, with strong fundamentals in DBMS, Operating Systems, and Computer Networks. Seeking an entry-level Software Developer role.

Technical Skills

Programming Languages: C, C++, Python, JavaScript, TypeScript

Frontend: React.js, Next.js, HTML5, CSS3, Bootstrap

Backend: Node.js, Express.js, REST APIs, Role-Based Authentication

Databases: MySQL, MongoDB

AI & Cloud: Gemini API Integration

Core Concepts: Data Structures and Algorithms, DBMS, Operating Systems, Computer Networks

Tools: Git, GitHub, VS Code

Projects

CrimeLens – Crime Management Platform | GitHub Feb 2026 – Jun 2026

React.js, Node.js, TypeScript, MySQL, Gemini API, CSS

- Developed a full-stack crime-management platform with crime reporting, case management, search, dashboards, user management, and report generation.
- Integrated Gemini AI for image-based analysis and crime-related insights to support evidence assessment.
- Implemented separate Admin and Police dashboards with role-based authentication and MySQL database integration.

Smart Farming Advisor | GitHub Jan 2026 – Jul 2026

Python, Flask, Gemini API, HTML, CSS, JavaScript

- Built an AI-powered web application providing crop recommendations, soil analysis, fertilizer guidance, and pest management advice.
- Developed a web interface that processes farmer inputs and presents context-aware agricultural recommendations.
- Implemented the backend with Python and Flask, integrated with an AI API for farming guidance.

Process Scheduling Analyzer | GitHub Sep 2025 – Jan 2026

Next.js, React.js, TypeScript, Node.js, CSS

- Built an interactive CPU scheduling visualizer supporting FCFS, SJF, SRTF, Round Robin, and Priority algorithms.
- Generated Gantt charts and calculated Waiting Time (WT) and Turnaround Time (TAT) to compare algorithm performance.
- Developed a responsive interface using Next.js and TypeScript to visualize process execution.

Education

Graphic Era Hill University 2023 – 2027

Bachelor of Technology in Computer Science and Engineering (CGPA: 7.6/10) *Bhimtal, Uttarakhand*

Achievements

- Solved 200+ Data Structures and Algorithms problems on LeetCode, GeeksforGeeks, and other platforms.
- Ranked in the top 350 of 2,000+ participants in Naukri Campus CodeQuezt #35 coding challenge (October 2026).
- Achieved the 95.78 percentile in Naukri Campus Young Turks 2026 and received a Certificate of Merit.

Certifications

- IBM SkillsBuild Virtual Internship – Emerging Technologies (AI & Cloud), Edunet Foundation (Jun 2026 – Jul 2026)
- AWS Cloud Practitioner Training – Amazon EC2, S3, VPC, Machine Learning and AI Fundamentals
- NPTEL – Database Management System (DBMS)
